CONFLICT OF INTEREST

Authors must disclose all relationships or interests that could influence or bias the work.

Please follow the International Committee of Medical Journal Editors for Conflicts of interest:
<http://www.icmje.org/conflicts-of-interest/>

A conflicts of interest exists if authors or their institutions have financial or personal relationships with other people or organisations that could inappropriately influence (bias) their actions. Financial relationships are easily identifiable, but conflicts can also occur because of personal relationships, academic competition, or intellectual passion.

All submissions to Journal of Clinical and Experimental Dentistry must include disclosure of all relationships that could be viewed as presenting a potential conflict of interest

- At the end of the text, under a subheading “Conflicts of interest”, all authors must disclose any financial and personal relationships with other people or organisations that could inappropriately influence (bias) their work. If there are no conflicts of interest, authors should state that.
- All authors are required to provide a signed statement of their conflicts of interest as part of the author statement form:
