## DATA SHARING POLICY

This is an open-access journal distributed under the terms of the Creative Commons Attribution License, which permits unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited.

The data sharing policy of Journal of Clinical and Experimental Dentistry is the same that all journals joining PMC, they must make the full text of their deposited content viewable in PMC.

- We provide all the content to PMC as close to publication as possible, regardless of when they allow it to be publicly accessible, as this makes it easier for them to correct errors detected in the journal's files during PMC's data review process.

- To allow the primary research articles to be viewable in PMC as early as possible but generally less than one year from publication date.

- To allow all other journal content (e.g. letters, reviews, etc.) to be viewable in PMC as early as possible but generally less than three years from publication date.
